Editors’ choice
71 Highlights from this issue
P Smith and G Fuller

Reviews
72 Low-grade brain tumours and seizures
S Kerrigan, R Grant
77 Improving the diagnostic accuracy in parkinsonism: a three-pronged approach
M B Aerts, R A J Esselink, B Post, B P C van de Warrenburg, B R Bloem
88 New diagnostic criteria for Alzheimer’s disease and mild cognitive impairment for the practical neurologist
A E Budson, P R Solomon

Ask the expert
97 Teaching clinical neurology
C Allen

Neurological reflections
102 Seeing optic neuritis through myopic eyes
P K Sethi, N K Sethi

How to do it
103 SUDEP discussions with patients and families
J P Leach
107 Comment on ‘SUDEP discussions with patients and families’
J Hanna
108 SNAPs, CMAPs and F-waves: nerve conduction studies for the uninitiated
R G Whittaker

Clinicopathological conference
116 Encephalopathy in a 45-year-old woman: presented at the Advanced Clinical Neurology Course, Edinburgh 2010
C Derry, C Allen, R Grant, J Ironside, R Davenport

Neurological rarity
126 Neuro-Sweet’s disease
G Maxwell, N Archibald, D Turnbull

Image of the moment
131 Listeria rhomboencephalitis
A Abbs, TP Nandakumar, P Bose, D Mooraby

Neurological letter from
133 Letter from Libya
H T S Benamer

Test yourself
135 End of the bed (end of the video) diagnosis
Z Dean, A Vincent, M E Farrugia

Letter to the editor
139 The term ‘generalised’ in EEG reports: too much ambiguity?
F Brigo

Carphology
142 Carphology by A Fo Ben

Desert island neurology
87 Seizures after head injury
P Smith
