Editors’ Choice
353 Highlights from this issue
P Smith, G N Fuller

Editorial
354 Test them all; an easily diagnosed and readily treatable cause of dementia with life-threatening consequences if missed
S Nightingale, B D Michael, S Defres, L A Benjamin, T Solomon

Commentary
357 HIV testing in dementia: test some, perhaps more, but not all
J M Schott

Reviews
359 Brain tumour mimics and chameleons
D Bradley, J Rees
372 Neurology and detective writing
P A Kempster, A J Lees

Book review
376 Neurology book club
P Smith

A difficult case
377 Bilateral internal carotid artery stenosis complicating acute sinusitis
K T Joseph, I Momjian-Mayor, M I Vargas, R Sztajzel

Image of the moment
380 SIRPIDS: An unusual EEG pattern in a critically ill patient
A May, P Douyon, N K Sethi

386 Looking beyond the obvious: cerebral calcification
S W Lines, H Ramadan
393 Methyl iodide rhombencephalopathy: clinico-radiological features of a preventable, potentially fatal industrial accident
I Iniesta, M Radon, C Pinder
418 Migration of intraocular silicone oil into the brain
J Cosgrove, I Djoukhadar, D Warren, S Jamieson

Neurological rarities
382 Niemann–Pick type C: a potentially treatable disorder?
A Kheder, C Scott, S Olpin, M Hadjivassiliou

Test yourself
388 A pain in the neck
W J Brownlee, J Morrow, B McGuiness, J A Pereira, R Roxburgh

How to do it
396 How to use the entrainment test in the diagnosis of functional tremor
L S Roper, T A Saifee, I Parees, H Rickards, M J Edwards

How to understand it
399 Exome sequencing: how to understand it
M J Keogh, D Daud, P F Chinnery

Therapeutic interventions
408 How to recognise and treat peripheral nervous system vasculitis
E A Marsh, L M Davies, J G Llewelyn

Neurological letter from
412 A neurological letter from UK general practice
S Collyer

What neurologists need to know
420 Bilateral neck of femur fractures secondary to seizure
S A Brennan, C J O’Neill, M Tarazi, R Moran

Carpology
422 Carpology by A Fo Ben
