

**Cover image** Cerebellum tissue. Coloured light micrograph of a section through the cerebellum of the brain. This is the grey matter of the cerebellum. It consists of two layers; the molecular layer (dark brown) and the granular layer (light brown). Purkinje cells (white), a type of neuron (nerve cell), form the junction between the two layers. Purkinje cells consist of a large flask-shaped cell body with many branching processes (dendrites). The cerebellum controls balance, posture and muscle coordination. Horizontal object size: 3mm.

## Editors' choice

**139** Highlights from this issue  
P Smith, G Fuller

## Reviews

**140** When the going gets tough: how to select patients with Parkinson's disease for advanced therapies  
P F Worth

**153** Mimics and chameleons in motor neurone disease  
 OPEN ACCESS  
M R Turner, K Talbot

## Clinicopathological conference

**165** Rapidly progressive dementia and ataxia in an elderly man  
 OPEN ACCESS  
R M Ahmed, G M Halmagyi, M L Rodriguez

## A difficult case

**174** Old adversaries, modern mistakes: neurosyphilis  
M Proudfoot, B McLean

**178** Midbrain encephalitis associated with neoplasia  
A Nitkunan, M P T Lunn, G T Plant, F Schon

## Editorial

**181** Midbrain encephalitis associated with neoplasia: commentary  
J Rees

## Neurological rarities

**183** Isolated, complete paralytic mydriasis secondary to herpes zoster ophthalmicus  
C N Czyn, T S Bacon, T P Petrie, J D Justice, K V Cahill

**185** A bitter-sweet tale from the land of milk and honey  
A M Chancellor

## Test yourself

**188** Paraplegia after epidural anaesthesia  
A Labiano-Fontcuberta, J Benito-León, J F Gonzalo-Martínez

## From the retired

**192** Neurological moments musicaux  
In memoriam: Franz Schubert (1797–1828)  
G Stern

## Image of the moment

**193** Wegener's granulomatosis presenting with multiple cranial nerve palsies and pachymeningitis  
A M Iqbal, D Blackburn, M Rafiq, B Sharrack

**196** 'Spontaneous thalamotomy'  
J del Val, P J García-Ruiz, A Herranz

**197** Progressive dysphagia without dysarthria  
B R Wakerley, K Warburton, P Plaha, S Bojanic, M Jackson, M R Turner

**198** Rapid brain metastasis within 3 weeks  
J G Heckmann, B Kempf, S Ernst

## What neurologists need to know outside their speciality

**200** Diffuse multiple sclerosis and chronic central serous chorioretinopathy: pitfall not to ignore  
S Milazzo, A Drimbea, P Betermiez, S Al Fayeze, D Bremond-Gignac
