Editors’ Choice
285 Highlights from this issue
P Smith, G Fuller

Editorial
286 What role for ultrasound in diagnosing carpal tunnel syndrome?
J M Dineen, S A Greenberg

Reviews
288 Muscle diseases: mimics and chameleons
R J Walters
299 Imaging of the cerebellopontine angle
S Renowden
310 Non-motor Parkinson’s: integral to motor Parkinson’s, yet often neglected
A Todorova, P Jenner, K Ray Chaudhuri
323 Narcolepsy: a clinical review
G Leschziner
332 Neurological signs of possible diagnostic value in the cognitive disorders clinic
A J Larner

How to understand it
336 Magnetoencephalography
M Proudfoot, M W Woolrich, A C Nobre, M R Turner

How to do it
344 How to give a talk
E Fathers

Image of the moment
349 Progressive bilateral ptosis in a patient with midbrain metastaasis and chronic inflammatory demyelinating polyradiculoneuropathy
D Kaski, L Ginsberg
363 Colloid cyst of the third ventricle
J P Thawani, M S Grady

A difficult case
351 Periodic thigh pain from radicular endometriosis
G Zanette, F Magrinelli, S Tamburin
354 Hard to swallow: atypical transthyretin amyloid neuropathy mistaken for CIDP
M Gibani, J Hoare, C J Whelan, J N Dungu, J A Gilbertson, C M Gabriel

Neurological rarities
357 Toxic encephalopathy due to colchicine—Gloriosa superba poisoning
I K Gooneratne, P Weeratunga, M Caldera, R Gamage
360 Rarities in neurology: blue rubber bleb naevus syndrome
R Wynford-Thomas, A Johnston, S Halpin, K Hamandi

Book club
364 When the air hits your brain
T Hughes, K Harding
365 Do No Harm
H Grote, F Schon

Carphology
366 Carphology by A Fo Ben

Electronic pages
e2 Imaging of the cerebello-pontine angle (extended, online version)
S Renowden
